AEROTWIN

Safety and top performance

Clear vision for the car driver is an important prerequisite for safety in road traffic. Each windshield wiper from Bosch is a top performer when it comes to guaranteeing this safety. In the course of an average service life, it cleans the equivalent area of 60 soccer pitches. In so doing, it covers approx. 800 km in over half a million wiper movements! Impressive figures resulting from technical perfection.

As in many areas of automotive technology, innovations from Bosch have been ground-breaking for decades. For example, the first electric windshield wiper, the windshield washing system, or the use of synthetic wiper-blade elements – Bosch was and is the pioneer of progress.

Säkerhet och topprestation

Att föraren har fri sikt är en viktig förutsättning för att få säkerhet i trafiken. Vartenda torkarblad från Bosch presterar i topp när det gäller att garantera säkerheten. Under ett torkarblads genomsnittliga livslängd rengör det motsvarande en area på 60 fotbollsplaner. Samtidigt tillryggalägger bladet ungefär 80 mil i de mer än en halv miljon rörelser det gör fram och tillbaka över rutan! Imponerande siffror tack vare tekniskt fulländade egenskaper.

Precis som på många andra områden inom bilteknologi har innovationer från Bosch varit banbrytande i årtionden. Här kan man nämna det första elektriska torkarbladet, vindrutepolarsystemet eller användning av syntetiska torkarbladsdelar – Bosch har varit och är fortfarande pionjär när det gäller utveckling av bilutrustning.

Sikkerhet og topp prestasjoner

God sikt for sjåføren er en viktig forutsetning for sikkerheten i trafikken. Hvert enkelt viskerblad fra Bosch yter maksimalt for å garantere sikkerheten. Et viskerblad rengjør gjennomsnittlig et areal som tilsvarer 60 fotballbaner i løpet av levetiden. Samtidig tilbakelegger det ca. 800 km i mer enn halv million bevegelser av viskerbladet! Imponerende tall som er et resultat av teknisk perfektjon.

Nyskapninger fra Bosch har vært banebrytende i flere tiår på mange områder innen bilteknologi. Bosch har vært og er fortsatt pioneren i utviklingen av bilutstyr, og var blant annet først ute med det første elektriske viskerbladet, frontrutevaskesystemet og bruk av syntetiske viskerbladsdelar.

Sikkerhed og toppræstation

Klart udsyn for chaufføren er en vigtig forudsætning for sikkerheden i trafikken. Hvert enkelt viskerblad fra Bosch yder en toppræstation, når det gælder om at garantere sikkerheden. I løbet af en gennemsnitslevetid for et viskerblad rengør det, hvad der svarer til et areal på 60 fodboldbaner. Samtidig tilbagelægger det ca. 800 km i mere end en halv million bevægelser af viskerbladet! Imponerende tal som et resultat af teknisk fuldstændighed.

Som på mange områder inden for automobilteknologi har innovationer fra Bosch været banebrydende i årtier. For eksempel det første elektriske viskerblad, forrudevaskesystemet eller brugen af syntetiske viskerbladsdele – Bosch har været og er fortsat pioneren inden for udviklingen af autoudstyr.

Huippuluokan suoritus turvallisuudessa

Liikenneturvallisuuden kannalta on tärkeää, että kuljettajan paikalta on hyvä näkyvyys. Jokainen Boschin valmistama tuulilasinpyyhin ylittää huippusuorituksen turvallisuuden lisäämisessä. Keskimääräisen käyttöikänsä aikana yksi sulka puhdistaa 60 jalkapallokentän laajuisen alueen. Yli puolen miljoonan pyyhinliikkeensä aikana sulka taittaa noin 800 km! Vaikuttavia lukuja, jotka ovat teknisen huippulaadun ansiota.

Boschin keksinnöt ovat olleet uraauurtavia monilla muillakin autotekniikan aloilla jo vuosikymmenien ajan. Esimerkiksi ensimmäiset sähkökäyttöiset tuulilasinpyyhkimet, tuulilasinpesujärjestelmä, tuulilasinpyyhkimien synteettisten osien käyttö – Bosch on ollut ja on edelleenkin autotarvikkeiden kehityksessä edelläkävijä.
